- Travel & accommodation costs may apply for training on your site.

Venue

- Training can be done at Petzl Technical Institute's or your venue as long as it meets the venue requirements.

Certification

- Record of attendance

Contents

- Characteristics of team rescue
- Understanding rescue basics: situation assessment
- Haul systems
- Using the BERMUDE and/or PITAGOR
- Evacuation by tensioned highline
- Using the NEST in various configurations
- Confined-space rescue
- Rescue simulation with multiple victims

Why this training?

- The purpose of the training is to provide the elements needed to better present Petzl rescue products. With this in mind, participants will develop and apply their knowledge of Petzl products over the course of various introductory team rescue simulations.

For whom?

- Dealers
- Petzl technical sales reps
- Petzl Technical Institutes
- Petzl Technical Partners

Goals

- Know the Petzl products designed for rescue
- Be able to use Petzl products in various configurations under the guidance of an instructor
- Know the basic rules of decision-making, taking action and debriefing during a team rescue
- Understand the limits of this training (this is not a rescuer training)
