

Contents

- Legislations
- Regulations
- Rescue plan
- Implementing a safe & efficient evacuation strategy
- Accessing & mobility on the towers or stations
- Cable travel
- Accessing the cars / chair lifts (special cases)
- Evacuating customers from the cable cars / chairlift

Why this training?

- To learn how to recognise products from Petzl and its competitors that can be used for Cable Lift Evacuation.
- To know how to set up the evacuation system offered by Petzl.

For whom?

- Dealers
- Technical sales reps
- Petzl Technical Institutes
- Petzl Technical Partners

Goals

- Understanding the different types of cable lifts or ropeways
- Knowing the regulatory and legislative framework
- Knowing the PPE and evacuation equipment
- Rescue operator skills – belaying, abseiling, vertical mobility skills & rigging
- Working together to develop an evacuation technique
- Safe & efficient evacuation of customers from cable cars & chairlifts

Prerequisites

- Completion of the Dealer PRO 1 and Dealer PRO 2 modules or completion of VDO013 & VDO014 modules. Students who have not worked for ski lift operators must each take two rapid e-learning modules, to learn the vocabulary and main technologies of Cable Lifts.

Duration

- 3 days

Documents provided

- Technical documents
- Module handouts

Price ex GST \$POA

- Travel & accommodation costs may apply for training on your site.

Venue

- Training can be done at Petzl Technical Institute's or your venue as long as it meets the venue requirements.
