- Technical documents
- Module handouts

Price ex GST \$POA

- Travel & accommodation costs may apply for training on your site.

Venue

- Training can be done at Petzl Technical Institute's or your venue as long as it meets the venue requirements.

Certification

- Record of attendance

Contents

- Identification of key practices
- Concrete benchmarks from the European standards and / or local legislative requirements (design and operation of Adventure Parks)
- Basic rules of PPE management & inspection
- Presentation of Petzl product solutions (participant / guide / rescue) and features / benefits of several high-lighted products
- Workshops on basic skills for operators (equipping the client and ground-level instruction, conducting a test course)
- Various anchoring solutions
- Rescue practice in various situations

Why this training?

- The general goal of this training is to support Adventure Park (AP) development, especially in countries where this activity is not well organised, by providing a toolbox for distributors:
 - knowledge of Petzl equipment and its use in Adventure Parks, and
 - the fundamentals for Adventure Park supervisory staff.

For whom?

- Adventure Park staff / operators
- Dealers
- Petzl technical sales reps
- Petzl Technical Institutes
- Petzl Technical Partners

Goals

- Know the basic rules for managing an Adventure Park
- Leadership intro: ensure the proper use of equipment in accordance with Adventure Park safety rules
- Practice rescue at height
- Select and use fall protection PPE suited to the environment (fall-arrest systems)
- Know the regulations for work at height and PPE
